### About IMC

IMC is solely focused on helping clients build better portfolios through our Informed Momentum® investment approach. This approach has been applied consistently across all strategies since the inception of the firm in 2007 (formerly EAM Investors). The daily application of our systematic process is designed to deliver consistent and predictable results. Since our entire company works for a single objective, it only makes sense to align the name of our brand with exactly what we do every day.

**We are the Informed Momentum Company.**

#### INSTITUTIONAL INVESTOR USE ONLY. Past performance does not ensure future results, and there is no assurance that the portfolios will achieve their investment objectives.

As of February 4, 2025, EAM Investors, LLC (EAM), has officially changed its name to the Informed Momentum Company (IMC). This name change does not impact the integrity or content of the research, reports, or any materials previously published under the old name. All references to "EAM" in past publications or reports now refer to "IMC."

Informed Momentum Company (the "Advisor") is an institutionally-focused investment advisor registered with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940. The IMC Emerging Markets Equity representative account is expected to maintain an investment exposure of 90-100% with the goal of capital appreciation.

The IMC Emerging Markets (EM) Equity Model is a model portfolio that is paper-traded daily and maintained and calculated using the Factset Research System. The system calculates hypothetical performance based on end of day pricing. Transactions were not executed, and no actual investments were made within the model portfolio. The performance figures do not reflect the results of actual trading or the cost of taxes, brokerage, management fees or other expenses or taxes applicable to a typical investor. Model returns include an allocation to cash and the hypothetical receipt of dividends. Net returns reflect the deduction of the maximum annual management fee of 0.35% before custody charges, withholding taxes and other indirect expenses.

The MSCI Emerging Markets (EM) Index captures large and mid cap equity securities across 24 Emerging Market countries and captures approximately 85% of the free float-adjusted market capitalization of each country. The MSCI EM Index has been chosen as a benchmark for the IMC EM Equity Model because the Advisor believes that it is the most appropriate broad-based securities index available to be used for comparative purposes given the investment strategy of the portfolio. The MSCI EM Growth Index captures securities exhibiting overall growth style characteristics across 24 EM countries. The MSCI EM Value Index captures securities exhibiting overall value style characteristics across 24 EM countries. The MSCI EM Value Index and the MSCI EM Growth Index are being presented for informational purposes only.

Neither MSCI nor any other party involved in or related to compiling, computing or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any of such data. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages. No further distribution or dissemination of the MSCI data is permitted without MSCI's express written consent.

The performance of the Indexes reflects dividends net of foreign tax withholdings applicable to a typical foreign investor and capital gains but does not reflect the deduction of any investment management fees or other expenses or taxes. The Indexes are unmanaged and cannot be invested in directly. Under no circumstances does the information contained within represent a recommendation to buy or sell securities. The securities identified in the materials are used for illustrative purposes in the discussion of our investment philosophy and processes. We may or may not have held, currently hold, or will hold any of the securities.

The portfolios are actively managed and holdings are subject to change. We believe the information presented is reliable, but we do not guarantee its accuracy. The opinions expressed will evolve as future events unfold.
